

BD Nano-Series – Increased Quantity per Pallet

Number per Layer

Secop is introducing a larger BD Nano-Series compressors quantity per pallet. The number of compressors will be increased from 200 to 240 units on the wooden pallets.

Each layer quantity will be increased from 40 compressors to 48 compressors per layer.

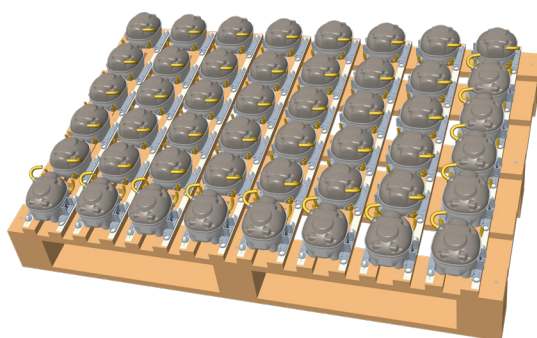

Fig. 1 One layer with an increased quantity of 48 units

Dimensions

The external dimensions of packaging will remain unchanged, see Figures 2 and 3.

Timing

Current packaging will be phased out and new packaging will be implemented starting March 19, 2024.

Code Numbers and Further Info

Code numbers will not be affected by this modification and remain unchanged. For any further questions, please feel free to contact your local Secop representative.
