

MANUFACTURER'S DECLARATION

Secop GmbH, Flensburg, Germany declares under our sole responsibility that the

Product Category: Hermetic Motor Compressors

Type designation: GS, SC, NL, NF, KL, PL, MS, MN, GTK, HKK, HMK, HTK, HXK, HZK variants

Are in conformity with following Directive(s), Regulation(s), standard(s) or other normative document(s), provided that the product is used in accordance with our instructions and the refrigerants for which they are released.

That the majority of our compressors fall under Article 4, paragraph 3 of the Pressure Equipment Directive 2014/68/EU (PED). These compressors are designed and manufactured in accordance with sound engineering practice and are supplied with the appropriate documentation as required by Article 4(3). Compressors under article 4, paragraph 3 must not be CE marked according to PED

A few compressors fall under Category I of the Pressure Equipment Directive. However, since all compressors are also covered by the Low Voltage Directive 2014/35/EU, these Category I compressors are excluded from the scope of the PED, in accordance with the exemption provided in Article 1(2)(f)(iii) of Directive 2014/68/EU, which specifies that pressure equipment covered by the Low Voltage Directive is not subject to the PED.

Therefore, compressors falling under Category I are not subject to the conformity assessment procedures of the Pressure Equipment Directive but instead comply with the essential safety requirements of the Low Voltage Directive 2014/35/EU.
