

Secop GmbH Named as TOP 100 Innovator 2023

Flensburg – Germany, February 1, 2023

Secop GmbH has received the **TOP 100 Innovator 2023** award. The award is given annually to companies in Germany that have demonstrated a commitment to developing cutting-edge solutions. The TOP 100 independent and scientific selection process value a company's overall approach to innovation and not just its innovative products. The award has been bestowed upon Secop GmbH as recognition of its innovative solutions in the refrigeration industry and its philosophy and processes toward innovation.

"We are honored to be named one of the TOP 100 Innovator companies in Germany, this is the result of the cooperation between different departments located in Flensburg (Germany), Gleisdorf (Austria), Zlaté Moravce (Slovakia), and Tianjin (China)" said Jan Ehlers, the CEO of the company. "This recognition is the result of the hard work and dedication of our employees and the passionate as well as committed approach inside our teams to stimulate innovative ideas and convert them into better products, solutions, and services for our industry."

Among the innovative products Secop GmbH recently developed are the **Cascade Condensing Unit** used in the ultra-low temperature boxes for medical cold chain, the **BD Nano**, a DC Compressor with its impressive dimensions, performance, and efficiency, and the **KLF**, the innovative and versatile propane (R290) compressors for food and beverage applications, equipped with a patented terminal plug. These new solutions are the results of research into new solutions, structured development processes, synergies among departments, customer focus, and challenging goals to go beyond the status quo of legacy products. Secop GmbH is strongly committed to agile innovation processes, and all our teams are committed to bringing new ideas and innovative solutions to all departments within the company, aiming to innovate with the highest level of quality and professionalism.
