

New Headquarters for Secop

Flensburg, December 16, 2021

The Secop headquarters has moved into a brand-new location in Flensburg, Germany.

Based on the business expansion of the company and further business developments planned for the upcoming years and supported by a strong commitment of our shareholders, Secop's management decided on a new location for the Secop headquarters in Germany. In the new headquarters, Secop will be able to combine all competences at one location to boost synergy effects and efficiency as well as flexibility to support its expansion plans.

From December 2021, Secop's global motor and electronics R&D center (MCC – Motor Competence Center), global application, finance, marketing, and all administration and logistic functions will be located at Lise-Meitner-Straße 29 in Flensburg, Germany. The new headquarters is in an industrial park that features great transport and service links:

Secop GmbH

Lise-Meitner-Straße 29
24941 Flensburg, Germany
www.secop.com
Phone: +49-461-4941-0

At the new location, the R&D center is in an annex where tests can be directly run at the site to exploit all the capabilities for compressor and application testing as well as motor and electronic design. A showroom has been built at the new headquarters, where different applications as well as the newest products and the company's history can be presented. Customers and visitors will get a chance to get a taste of Secop's products in the new showroom.

Furthermore, the new location features new functionalities for employees and visitors, Secop's team designed the new offices with the aim to offer teams a modern, efficient, and pleasant working environment, for both physical and virtual meetings, with a core focus on sustainability too, including charging stations for electric cars.

Secop's Team is proud to continue the journey at Secop's new headquarters in Flensburg.

About Secop:

Secop is the expert for advanced hermetic compressor technologies and cooling solutions in commercial refrigeration. We develop high performance stationary and mobile cooling solutions for leading international commercial refrigeration manufacturers and are the first choice when it comes to leading hermetic compressors and electronic controls for refrigeration solutions for light commercial and DC-powered applications.

The group has 1,350 employees worldwide with production sites in Slovakia and China as well as research centers in Germany, Austria, Slovakia, China, and the USA including a dedicated motor competence center (MCC) in Germany to support the development of electronics and motor controls.

Secop has belonged to the ESSVP IV fund since September 2019.
