

The figure displays a 3x3 grid of calendar heatmaps for the months of January, February, March, April, May, and June. Each heatmap shows temperature trends over time, with a color scale ranging from 14 (blue) to 28 (red). The heatmaps are arranged in three rows and three columns. To the right of the grid, there are three icons representing different cooling methods: Stationary Cooling (a person with a snowflake), Mobile Cooling (a mobile phone with a snowflake), and Medical Cooling (a medical syringe with a snowflake).
