

SECOP

SECOP COMPANY PROFILE

Sustainable Cooling Solutions

WHO WE ARE

Secop is a global leader in advanced hermetic compressors, electronic controls, and high-performance cooling solutions for commercial refrigeration. Recognised for over 70 years of innovation, the company has built a strong track record in energy-efficient and sustainable cooling technologies, earning the trust of leading manufacturers worldwide.

Core Business Segments

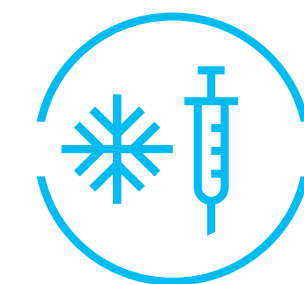

Stationary Cooling

Designing and manufacturing AC-powered compressors for light commercial applications, including food retail, food service, beverage, and special applications.

Mobile Cooling

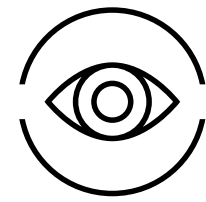

Battery-driven DC compressors for automotive, trucks, recreational vehicles (RVs), portable boxes, and solar applications.

Medical Cooling

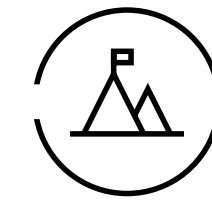

Tailored cooling solutions for storage and transport across the medical cold chain, including ultra-low temperature (ULT) applications.

VISION, MISSION AND VALUES

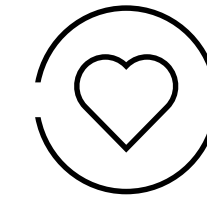

Vision

Secop strives to be the first choice for partners searching for leading-edge refrigeration solutions and premium customer experience.

Mission

Secop is committed to delivering advanced refrigeration compressors and controls, offering customers tailored sustainable solutions for light commercial, mobile, and medical applications.

Values

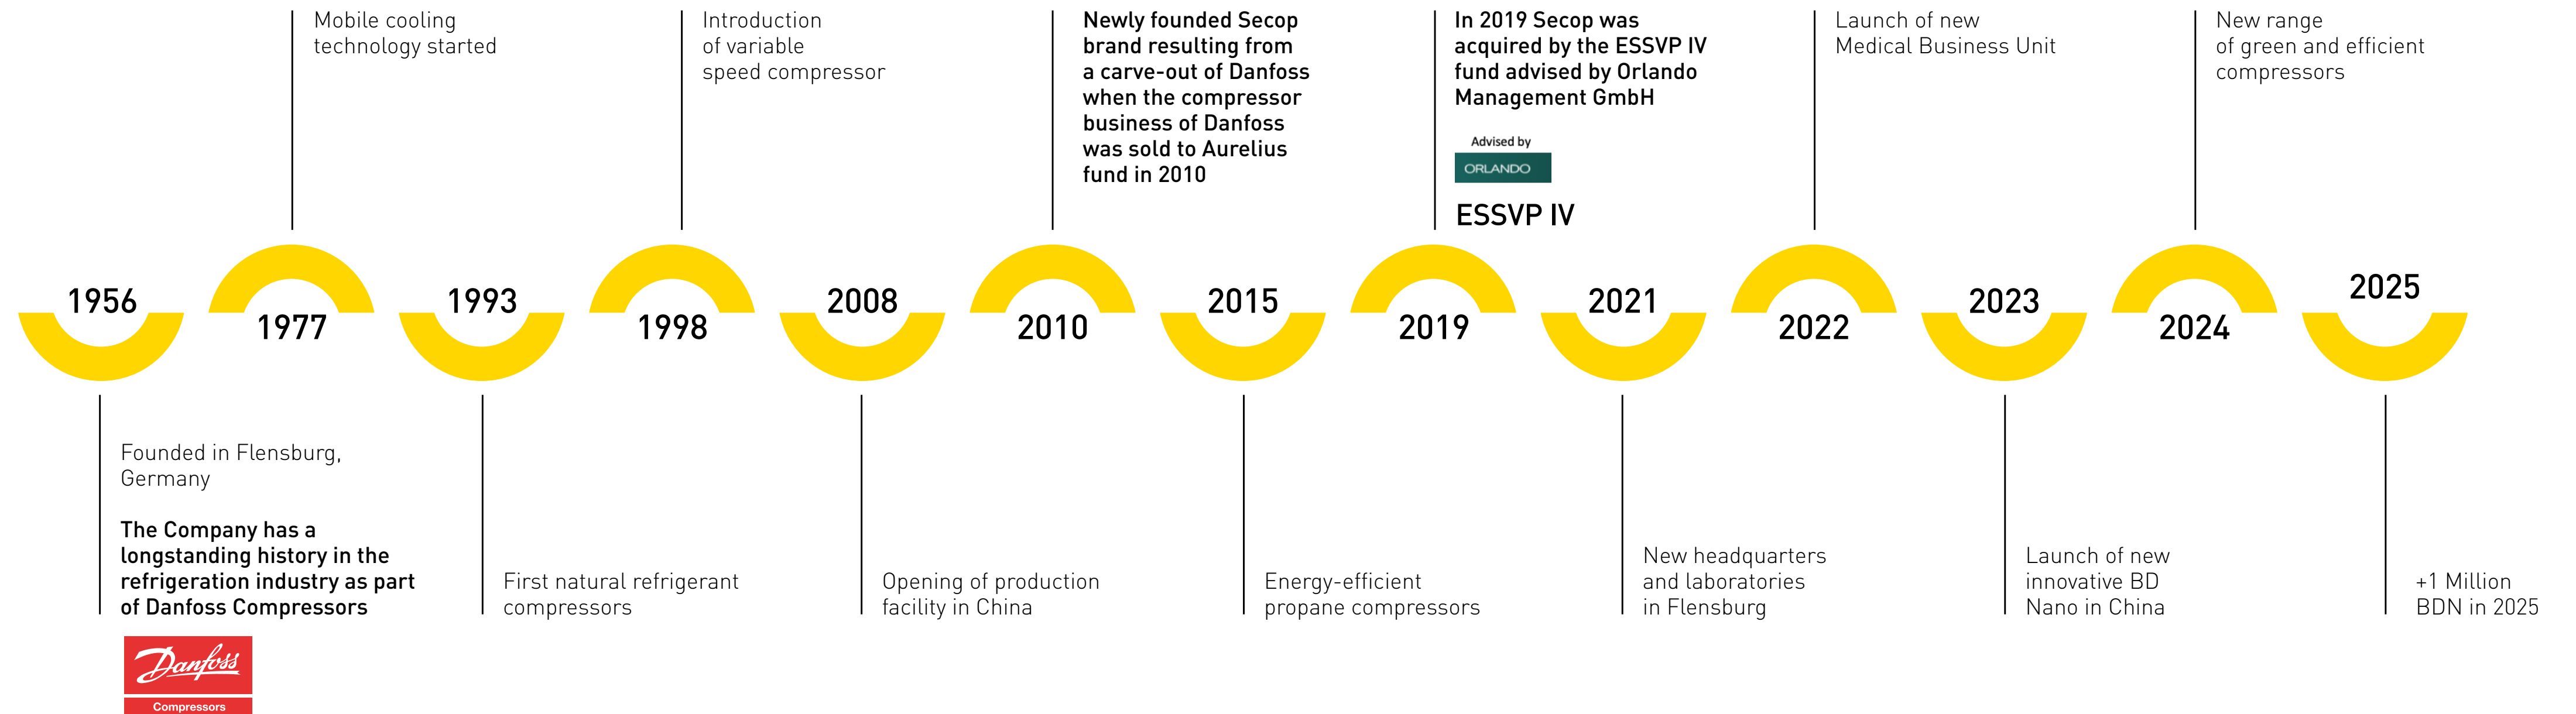

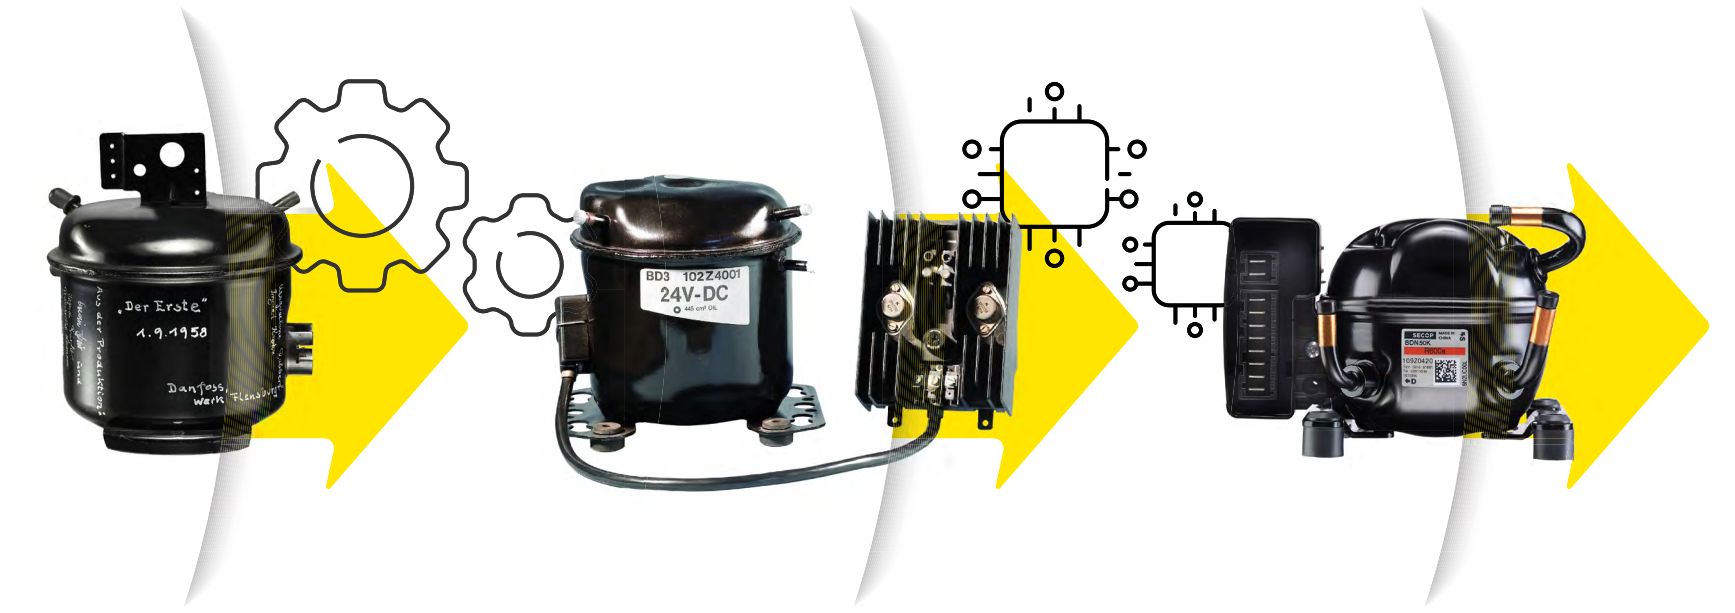

- Perform with passion
- Deliver high quality
- Act with integrity
- Work with team spirit

KEY MILESTONES

Secop has been at the forefront of the refrigeration compressor industry for 70 years.

70 years of experience in refrigeration...with key milestones along the journey.

WHAT WE DO

Storage (AC Powered)

Refrigeration compressors AC powered

AC electronic controls

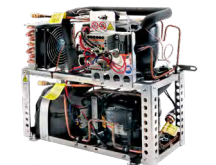

Storage cooling solutions

Refrigeration compressors DC powered

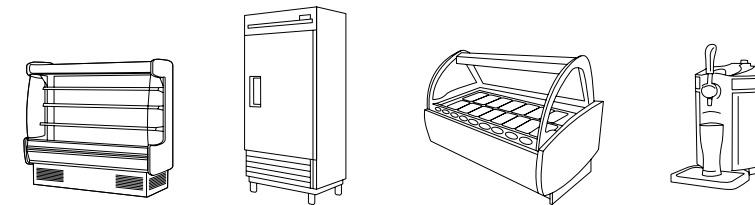

DC electronic controls

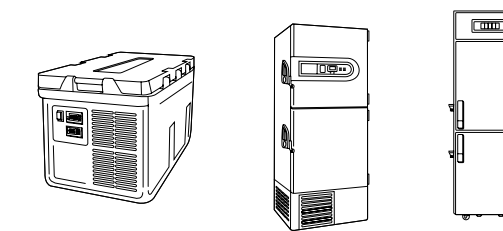

Transport cooling solutions

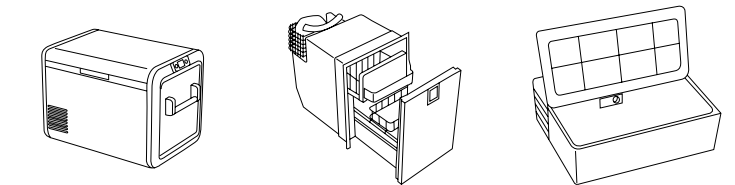

Designed for cooling solutions in food retail, food service, commercial freezers or coolers, as well as special commercial applications (food processing, heat pumps, etc...)

Pharmaceutical storage, Ultra Low Temperature, Hospitals and Medical Centers, Laboratories, medical cold chain vaccine transportation

Designed for cooling transportation applications in automotive, EV (1), trucks, recreation vehicles, portable boxes, solar systems

Light Commercial

Medical Cold Chain

Key Features

ENERGY EFFICIENT "GREEN SOLUTIONS"
The 'Secop brand' is renowned for its expertise and focus on energy efficiency and green solutions.

ELECTRONIC CONTROLLED COMPRESSORS
Top performing variable speed compressors offering unique product features which reduce energy usage and tailored control software.

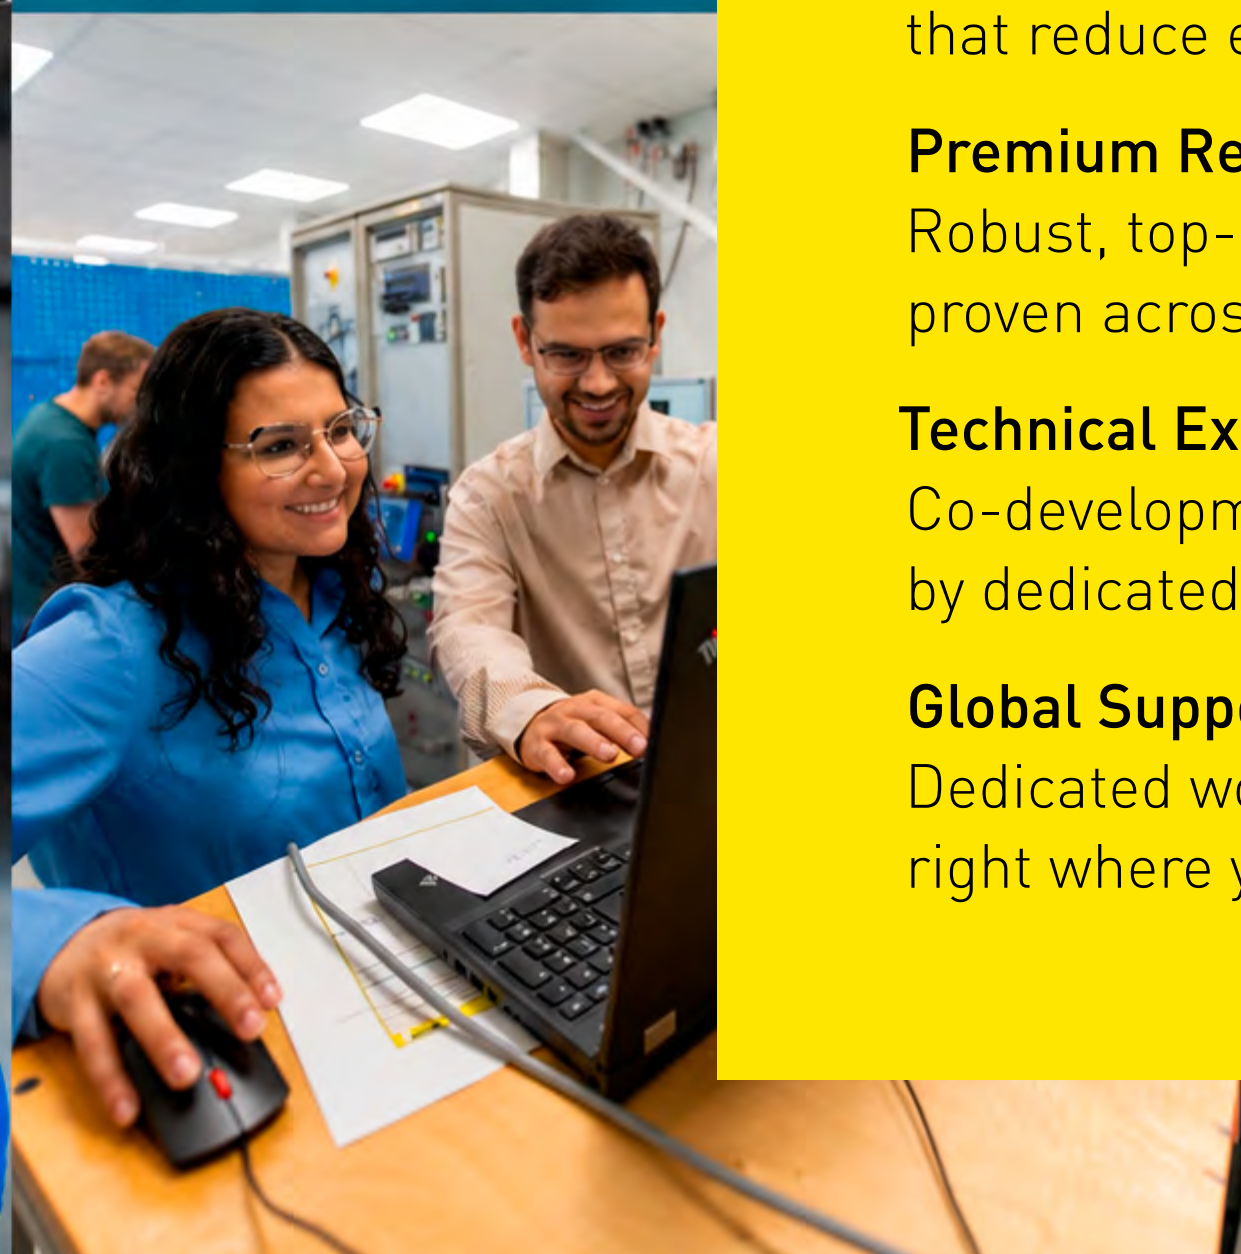

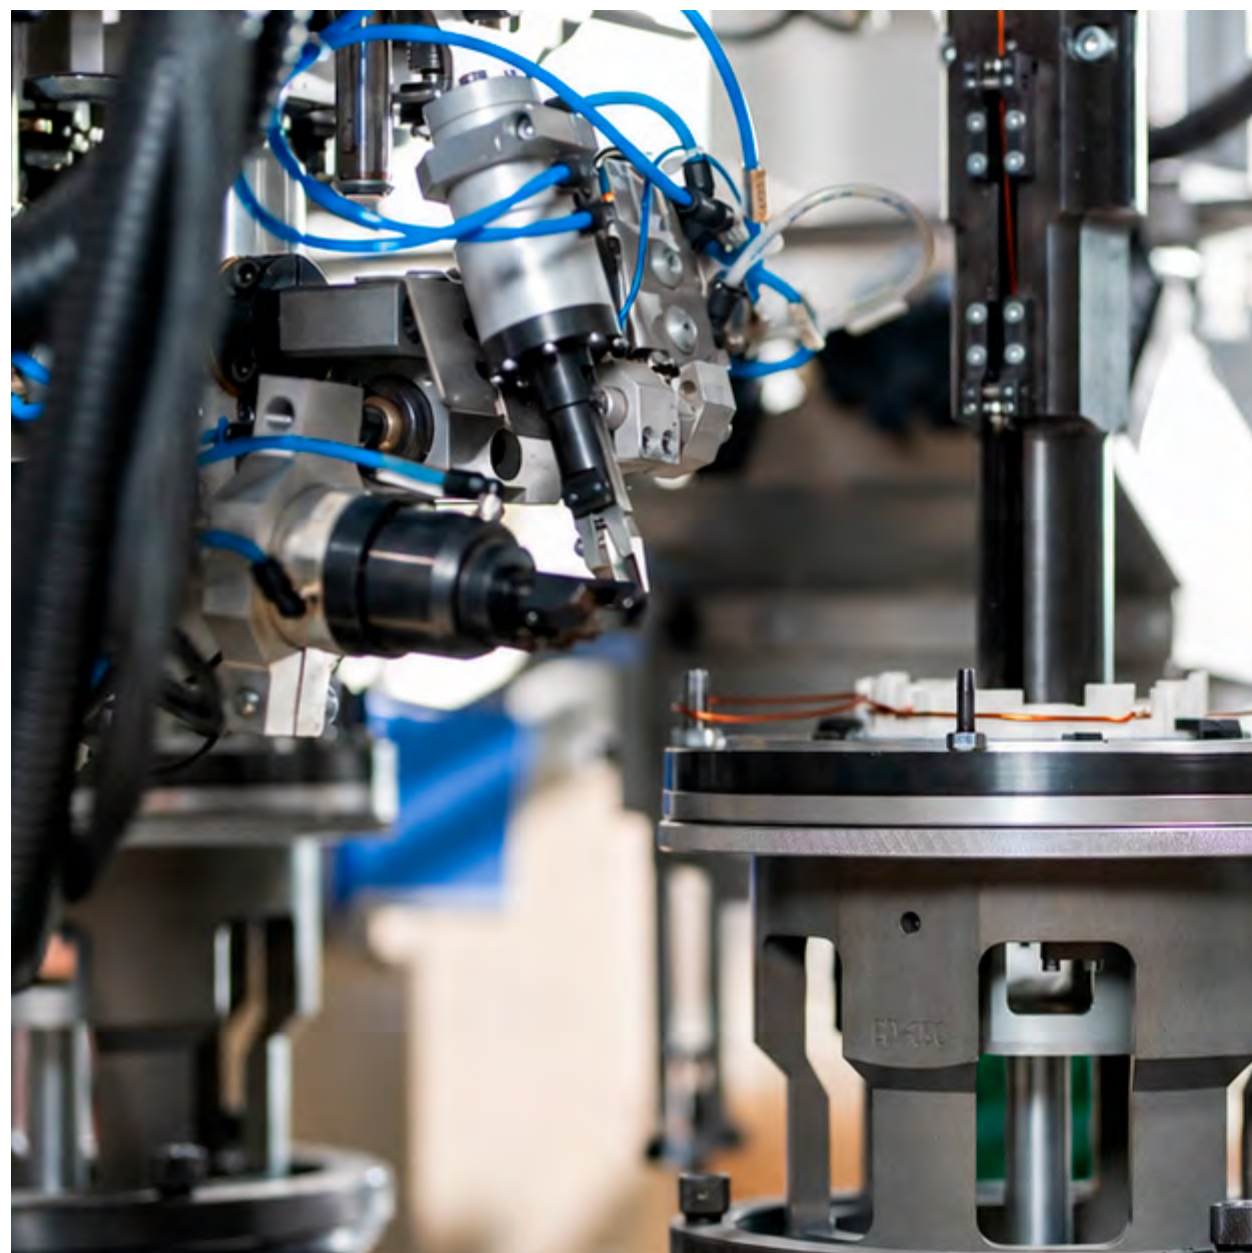

ROBUST DESIGN FOR WIDE APPLICATION RANGE
Secop's products offer robust and reliable design.

TUNED TO APPLICATION NEEDS
Various voltages options, different configurations and certifications to meet the needs in different markets.

HYDROCARBON READY
Environmentally friendly solutions using hydrocarbon refrigerants, targeting global growing markets.

WHY TO CHOOSE SECOP

More than a supplier. A partner built around your needs

We are your expert partner for customised, high-performance refrigeration solutions. We empower your business through:

Sustainable Cooling Solutions

State-of-the-art technologies and natural refrigerants that reduce energy consumption and environmental impact.

Premium Reliability

Robust, top-quality compressors and electronic controls, proven across commercial, mobile, and medical applications.

Technical Expertise

Co-development and system optimisation supported by dedicated R&D, Sales, and Application Engineering teams.

Global Support

Dedicated worldwide customer service ensuring expert assistance right where you need it.

International partners for advanced developments

12

Laboratories located in Germany, Slovakia, China, U.S.A., and Turkey

33

R&D engineers and technicians

Shanghai: Sales, Application and Marketing

PREMIUM CUSTOMER SUPPORT

Sales team close to customers.
 Support in 50+ countries.
 Customer service in 10+ languages.
 Application engineering local support.
 Worldwide Distribution Network.

DC COOLING SOLUTIONS FOR MOBILITY

**More than 45 Years of DC expertise
ready for what comes next**

Secop sets the standard for battery-driven compressors in mobile cooling.

Our engineering heritage and deep application knowledge have made us the reference partner for the world's leading manufacturers across trucks, buses, recreational vehicles, and the rapidly evolving electric vehicle market.

We work alongside our customers' R&D teams from early design through to validation, helping them achieve the performance, reliability, and regulatory compliance their applications demand.

AC COOLING SOLUTIONS FOR STORAGE

Green and efficient solutions for food and beverage

Supported by over 65 years of experience, Secop compressors deliver efficiency and premium reliability for commercial refrigeration systems.

The core light commercial applications are:

- Glass door merchandiser
- Ice cream freezers
- Stainless steel fridges
- Food retail cabinets
- Food service professional equipment
- Commercial freezers or coolers
- Ice makers
- Beverage dispensers
- Special commercial equipment
- Vending machines

Secop stationary cooling compressors are available for all worldwide supply standards.

COOLING SOLUTIONS FOR MEDICAL COLD CHAIN

Trusted by the world's leading medical equipment manufacturers

Various Secop's compressor and electronic control solutions are officially certified by the World Health Organization (WHO), supporting global vaccine access and distribution.

This compliance is critical, as many protocols (including WHO, FDA, and EMA) specify stringent ULT ranges for conservation, and only certified and validated compressors can ensure conformity.
