

## China RoHS All items manufactured in, sold to/from, or shipped to/from China must be labelled.

China RoHS (Restricted Use of Hazardous Substances) is a Chinese government regulation to control certain materials. All items manufactured in, sold to/from, or shipped to/from China must be labelled whether the items are compliant or non-compliant.

In order to comply with these regulations Secop products will be marked with new symbols to confirm that they fulfill the Chinese standards of Management Methods for Restriction of the Hazardous Substances and SJ/T11364-2014 (Marking for the Restricted use of Hazardous Substances in Electronic and Electrical Products).

All compressors and electronic units produced from July 1<sup>st</sup>, 2016 will be marked with the following Chinese RoHS symbol in accordance with the requirement outlined by SJ/T 11364-2014:

The black symbol will be used on compressor type labels and on the declaration sheets. The orange symbol will be used on electronic units. For fixed speed compressors, the mark can be found on the compressor type label (refer to Fig.1) and for the variable speed compressors it can be found next to the electronic unit's pin-out label (refer to Fig.2). This indicates that our product can be safely used during its guaranteed lifetime and should be recycled once its environmental protection period has been exhausted.

## Symbols

## Declaration sheet

Furthermore, we are obligated to add a declaration sheet for compressors and electronic units (one per single pack and one per pallet or industry pack), such as the example below, which we will deliver to our customers and/or distributors.

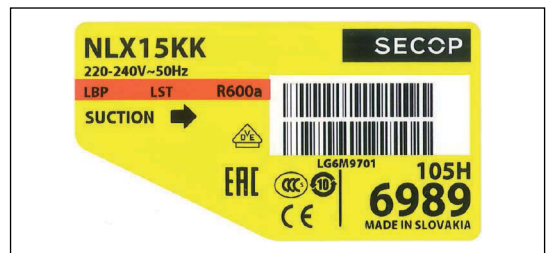

Fig.1 RoHS symbol on fixed speed compressor (type label)

Fig.2 RoHS symbol on electronic unit (pin-out label)

部件名称 Part Name	产品中有害物质的名称及含量 Hazardous Substances					
	铅 (Pb)	汞 (Hg)	镉 (Cd)	六价铬 (Cr)	多溴联苯 (PBB)	多溴二苯醚 (PBDE)
压缩机 Compressor	○	○	○	○	○	○
控制器 Electronic	X (属于欧盟RoHS豁免项) [EU RoHS Exemption]	○	○	○	○	○

本表格依据SJ/T11364的规定编制 According to SJ/T11364

○: 表示有害物质在该部件所有均质材料中的含量均在GB/T26572规定的限量要求一下  
means: Content of hazardous substances in all homogeneous materials of the component is under the limited value mentioned by GB/T26572

X: 表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T26572的限量要求  
means: Content of hazardous substances in one homogeneous material of the component at least over the limited value mentioned by GB/T26572
