

Overview of Starting Devices (117-) Code Numbers

Starting January 2012 Secop will optimize the 117-starting device portfolio for S-Series and G-Series compressors.

In order to do this we have decided to delete starting devices with 0,47 m compressor cables and replace with starting devices with 0,55 m cables.

In addition 117- starting devices and 117- starting device kits with low or no sales will be deleted from our portfolio.

Below you will find an overview of the deleted code numbers and the respective replacement code numbers. On page 2 you will find an overview of all our basic code numbers and customer specific code numbers.

Please kindly inform customers and purchasers to correct future order setups accordingly.

All 117- starting devices comply with IEC 60079-15

At the same, we are pleased to inform you that all 117- starting devices (excluding 117- starting device kits), comply with IEC 60079-15 explosive atmospheres, when operating compressors with flammable refrigerants.

Deleted code number	Replacement code number	Platform
117-7011	117-7025	S-Series
117-7012	117-7027	S-Series
117-7013	No replacement	S-Series
117-7024	117-7010	S-Series
117-7028	117-7029	S-Series
117-7034	117-7052	S-Series
117-7038	117-7039	S-Series
117-7049	117-7025	S-Series
117-7051	117-7031	S-Series
117-7059	No replacement	S-Series
117-7065	117-7066	S-Series
117-7084	No replacement	S-Series
117-9710	No replacement	Kit
117-9713	117-7010	Kit
117-9715	117-7027	Kit
117-9716	117-7029	Kit
117-9717	117-7029	Kit
117-9723	No replacement	Kit
